

This is to inform all prospective students of the Petroleum Training Institute, Effurun, specifically the 2021/2022 Post-UTME candidates, that those that did not choose Petroleum Training Institute, Effurun as their first choice of institution and scored 120 and above, are advised to change their first choice to PTI to stand a better chance of being admitted.

Furthermore, it is very important that all candidates should upload their O'level results on the JAMB Central Admissions Processing System (CAPS) at the latest **Wednesday, 1st December 2021**, particularly those who have done the Post-UTME screening.

Concerned students, Parents and Guardians are to take note and take advantage of the extension.

Signed:

Head, Admissions
