

PTI @ 50 ANNIVERSARY CELEBRATION !!!

We are excited to announce that the year 2022 marks 50 years of the establishment of our great Institute, the Petroleum Training Institute (PTI), Effurun, Delta State.

The Institute was established by the Act No. 37 of 1972 to provide course of instruction, training and research in petroleum technology and to produce technicians and other skilled personnel required to run the petroleum industry.

Today our graduates can be found playing key roles in every aspect of the oil and gas sector all over the world and especially within Nigeria.

To commemorate this milestone, a series of events have been lined up to celebrate the successes, accomplishments and contributions of the Institute that have impacted many lives, the host community and numerous businesses in the oil and gas sector.

One of the major features of the celebration is a one-day national conference award which will hold on 13th October, 2022, at the Petroleum Technology Development Fund (PTDF) towers, Abuja, Nigeria, with the theme: Fifty years of Training, Innovation and Technological Development.

As a major training hub servicing the West African oil and gas industry, PTI @ 50 Anniversary will be a gathering of the major stakeholders in the industry with a ministerial address by the Honourable Minister of state for Petroleum Resources, Chief Timipre Sylva.

We invite you to join us in hosting a memorable 50th anniversary event and help us support a common vision of:

- Commemorating the vital role PTI plays in the economic well-being of Nigeria and the West Africa oil and gas sector.
- Celebrating our students, staff; alumni and stakeholders who have contributed immensely to the excellence, growth and development of our Institute: and
- Fostering new relationships and building community networks that can support our graduates future, career, goals and ambitions and the aspirations of the Institute over the next 50 Years.

We wish to hereby invite the general public to come and felicitate with us on the historic milestone of 50 year of the Institute existence and exceptional delivery of training service to the oil and gas sector in Nigeria and Sub-Saharan Africa,
