Career Objective

My goal is to attain well balanced knowledge and experience of Information Technology as a business analyst professional, through hands on professional experience.

Strengths and Skills

- **Problem solving** skills as demonstrated by working at Liquor land as both a supervisor and Managerial roles.
- **Good follower** proven from working as a research market and Nulsen Heaven interviewer where we had procedures to follow.
- **Excellent customer service and communication skills** showed from experience working in the retail and hospitality industry for over four years.
- **Fast learner and willing to learn new skills.**
- **Hardworking and determined** demonstrated from everywhere I have worked at.
- **Accustomed to working under pressure and meeting deadlines.**
- **Grate team player** achieved from working in groups while in studying as team leader and member.
- Ability to **work independently** with minimal supervision

Technical skill and ability

- Design and building of websites implementing website functionality
- Drupal, HTML, CSS, PHP, Java, Java Applets,
- Java Script, XML, XSLT
- Analysis and design of databases using MySQL
- Computer networking
- Strong understanding of Project Management and experience using Microsoft Project 2010 and 2013
- Microsoft Office suite.
- Java
- Photoshop
